

## 2. **Quality Policy**

BCW Engineering Limited is committed to be the preferred choice of tooling and machined components for the automotive and general engineering industries

By focusing on meeting all Customer, Statutory and Regulatory requirements under a philosophy of Continuous Improvement, we will seize all opportunities offered and achieve our primary objective of complete Customer Satisfaction.

We have implemented a total Business System, which defines objectives and targets with review through the Management Review process, ensuring the requirements of ISO9001:2000 are met. Through adopting a positive and progressive attitude, we will ensure that everyone takes part, believing in and working towards achieving our goals.

The contents of our Quality Manual are mandatory and it is the responsibility of all, to work in accordance with the procedures.
